

Chapter 2

Page 41:

The white box view of a component shows an internal view of components by means of its private properties and realizing classifiers. This view shows how the external behavior is realized internally. To reflect this, the following changes are required.

- Change the sentence “The notations presented in Figure 2.1 ...” to “The notations presented in Figure 2.1 are used to model **the ClientManager, SensorManager, and VideoManager** components using an external, black-box view;...”
- Change “...designed using an internal, white-box view, not presented in ...” to “...designed using an internal, white-box view, ~~not~~ presented as **the ClientCollectionSystem** in ...”

Page 42:

Change the second word of the first sentence of page 42 from “the black-box approach,...” to “the **white**-box approach,...”

After corrections to page 41 and 42, the corrected text should be as follows:

“The notations presented in Figure 2.1 are used to model the ClientManager, SensorManager, and VideoManager components using an external, black-box view; however, components can also be designed using a n internal, white-box view, presented as the ClientCollectionSystem in Figure 2.1. When using the white-box approach ...”
